The "Blue Front" store room was sold Monday by Master Commissioner Rothwell, J. I. Hamilton becoming the purchaser at \$3,410.

Circuit Clerk Hamilton sold his residence, on Hill street, to Ross Bastin, price \$2,000. Mr. Hamilton will buy elsewhere in the city.

The local political pot continues to boil. Read our list of candidates' announcements and see who they are who want you to help them. They're all good people, well-qualified for the places sought.

A number of sidewalks in the city are becoming very rough and uneven. This is a great nuisance, and then, too, it will eventually make the girls bow-legged. How about this latter important matter, Mayor Logan?

The ladies of the WCTU will have an exchange next Saturday the 29th in Stormes store room. They will also serve ice cream and cake at 15c a sander with a slice of cake. Doors open at 2 p. m., and the money is to buy books for the Library.

No Preaching Sunday.

Br. Tindler writes The Record, from Cincinnati, that he will be unable to fill his pulpit at local Christian church next Sunday, as the minister for whom he is holding a meeting has been called away by serious illness of his wife's father.

Floyd's Philosophy.

"Sometimes I think I'd about as soon be a hog as a human," said John Floyd, of color, yesterday, as he paid a dollar poll tax on a hound pup. "Kase a hog is never in hot water but once, and that's after he's dead, whereas de po culud man is in hot water at least half his natchel lifetime."

We Must Keep Him.

Last Sunday morning, when the heat was almost unbearable, a certain Lancaster minister preached for not more than fifteen or twenty minutes. As the Lancaster people are determined to keep this gentleman, The Record will not give his name, because we know that he will be eagerly sought after by other towns.

Earn Your Own Wages.

Harrodsburg Herald:—If a minister can stand up in a stiff collar and a frock coat and preach for an hour in this boiling August weather, it looks like as if other men might saunter in and listen to him—if provided with cool clothing and a big fan. Oh, he is paid to preach, you say. Well, it may be news to you, but you are paid to listen to him—paid by the moral and civilizing influences which would not exist if churches were wiped off the earth. Turn out next Sunday and earn your wages.

They're Coming Back.

Quite a number of the colored men who went to Cincinnati and Indianapolis and suburbs of those cities are returning to their old homes, having found that they can make and save more right here than in the big cities. While they got bigger salaries, it is true, yet the expense of living was also higher, and they were compelled to put in more hours and at harder labor. Each excursion brings back some of them, and as cold weather approaches more will join in the homeward march. There were many good negroes who left here, and also some very undesirable ones. If the good will return and the trifling ones remain, Lancaster will be largely the winner.

Fine Times At Estill.

The Eight District Publishers' League will hold its quarterly meeting on Sept 4th, this time at Estill Springs. The League has been so successful in its undertakings that it has attracted attention of newspaper men all over the state. It is working wonders for the good of the public and members. The Estill Springs meeting will be attended by a great many prominent newspaper men from over the state who are not members. A most delightful and interesting program is being arranged for both the business and the social sessions. A feature of the occasion will be the attendance by a very large number of ladies, they having been especially invited.

GEORGE D. POTTS DEAD.

A Well-Known Lancaster Boy Dies in Maryland. Son of Mrs. Eugenia D. Potts.

Mr George D Potts, the only son of Mrs Eugenia Dunlap Potts, died Thursday afternoon at Frederick, Md., after an illness of about three weeks. The interment took place in the Potts family lot in Frederick. Mr Potts is survived by his wife and one son, George Murdock Potts. He was a nephew of Mrs George Denny and Mr Wood G Dunlap, of Lexington and Rev George W Dunlap, of Las Cruces, N. M. George Dunlap Potts was born in Montgomery, Ala., on November 24, 1864. His father, Dr Richard M Potts was a surgeon in the United States Army before the war, and was a great personal friend of General U S Grant. When war was declared Dr Potts resigned his commission and immediately joined the Confederate army and was given the rank of Major and was in charge of General Polk's division until the surrender at Appomattox. He died in Memphis, Tenn., on July 15, 1866, aged 38 years, and was buried in Frederick, Md., in the family lot. The childhood and early youth of George D Potts were spent at his grandfather Dunlap's home in Lancaster, Ky., but each year he paid a visit of some months to his father's family in Maryland. After finishing the course at the schools in Lancaster his education was completed at Alexandria, Va. He and his mother then moved to Chicago where Mr Potts was in the employ of N W Harris & Co's banking house. After two years' stay they moved to New York.

A few years later Mr Potts was sent to Cincinnati in the employ of the Winifrede Coal Co. While there he met and married Miss Rose Frances Greenan on December 12, 1893. A year later he was made manager of the Burnet House, which position he held for eight years and then leased the Stanton House at Chattanooga where he lived for three years. His health became impaired from the confinement and he went back to New York. Four years ago he was made Cashier and Auditor of the St Louis branch of the Columbia National Life Insurance Co., of Boston, Mass., which position he held at the time of his death.

He possessed a bright, cheerful, sunny disposition, made friends in every walk in life, climbed no hills, and endeared himself to everyone with whom he came in contact. His ancestors on the Potts side came from England and settled in Hagerstown and Frederick, Md., and they have no connections outside of the State. Richard Potts, the elder, was an aide to Governor Thomas Johnston in 1776, and afterward clerk of the Frederick County Court, a member of the Maryland House of Delegates and the Continental Congress, States Attorney of Washington and Montgomery counties, States Senator U S District Attorney for Maryland, Chief Justice of the Fifth District of Maryland and members of the Court of Appeals. Major Samuel Ringgold, who fell at Beuna Vista, and Commodore Cadwallader Ringgold, of U S Navy, were grand uncles of distinction. The ancestors of Mr Potts on his mother's side trace back to General William Jennings, Gen William Dunlap and Col William Jennings, who fought in the Revolutionary War. Mr Potts' grandfather, George W Dunlap, was a lawyer of distinguished ability, a member of the Legislature from Garrard county, member of the Border State convention that voted for men and money put a stop to the Civil War, and member of Congress from his district.

Mrs Eugenia Dunlap Potts left a sick bed to go to her son as soon as she was notified of his illness. In her feeble condition the shock proved too much for her and she is now in the hospital at Frederick, but last reports from her bedside were encouraging and her many friends hope to see her home again in a short time. All feel the deepest sympathy for her in this loss of her only child; her devotion, love and thought for whom was the supreme element in her life.

Fish All Gone.

A local Niurod tells The Central Record that there simply are no fish in Dix river, the gingers and dynamiters having completely ruined the stream. There is no finer fish stream anywhere, and the fact that a lot of law-breakers have been allowed to commit this crime is a shame and disgrace to a community supposed to have the least respect for law and order.

Try It, and See

There is no sport that can engage the attention of men that has so few of the objectionable elements as fishing. It is a quiet and unobtrusive pastime and is not so violent in nature as hunting. Besides there is infinitely less cruelty in it than any other sports that includes the taking of life. It is the kind of sport that its disciples can have time to ruminate on the good and bad things of the world and also to take in all the salient beauties of the forest, lake and stream between bites. The hunter must tramp about and be ever on the alert in order to sight the game. Tramping all day and an empty game bag is not conducive to the best temper in the world. But in fishing suppose there are but few catches there yet remains the satisfaction that one is not exhausted with the sport. The fisherman becomes a philosopher and a person of kindly disposition simply from the sport he follows. Patience is cultivated and evil thoughts do not find lodgement in the heart of the fisherman.

And then the reminiscences of the fisherman. They run back to the days of pinhooks and any sort of pole and line, back along the creek bank under the willows to the spot where the first fish was landed. True it may have been the smallest sunfish in the creek or a silverside sparkling in the sunshine of an ideal summer day or perhaps only a towly chub. But it was a fish and the first that you ever caught and all fish since then, whether the gamey bass or a royal trout, never quite measure up to the fish of the bare-foot boy down by the creek in that far off day when you first went fishing.

A man, or woman for that matter, who delighted to cast a bait or whip a stream, who can take chances for a bite and come home with either a full or empty basket, will have had a day of sport that has cleaned the cobwebs from a tired brain and pushed the wrinkles from weary eyes. Just go fishing once, if you have never been, and see what satisfaction comes from getting away from the crowd. The fact that one must get into quiet nooks and away from the noise to fish is something gained already.

Fish Killed.

At the recent big fire near Midway at which forty-seven thousand barrels of whiskey were burned, a tributary of South Elkhorn creek was filled with the burning whiskey, which set the creek on fire for miles. In consequence of the burned whiskey, the fish in South Elkhorn have been killed by thousands and fishermen fear that fishing there, which is one of the best streams in the State, has been ruined.

There are three things that must be considered by the masses during a campaign. There is the boss, who attempts to deliver the vote of the party to which he pretends allegiance and which he serves when it suits his selfish interests. Then the party itself, which pretends to be the embodiment of the vital principles that stand for the government. And lastly the people, which means the great masses that have nothing to gain save in having the best possible administration of public affairs. It is within the power of the people to control both the boss and the political parties and force them to do the bidding of the masses. The great trouble arises from the fact that too many voters consider the party the main thing, when as a matter of fact, it is only a means to an end. The abuses that creep into public affairs are the result of indifference on the part of the people. The parties and the bosses can go no further than the people permit. If the public is indifferent, then, of course, the selfish will proceed to grow fat at the expense of the masses.

And now comes the information that President Roosevelt has appointed a commission to devise means for the betterment of the life of the American farmer. This may be all right but when one takes a glance at the condition of the farmer, with his good roads, free daily mail, up-to-date telephone service, automobiles, modern machinery, bumper crops and big bank accounts and fat pocketbooks, one wonders where that commission will commence to better conditions. There are a whole lot of fellows in the cities and towns who have a sneaking idea that the farmer lives mightily near the top of the heap. And he has a right to live there, with what he has produced by his own efforts and with out the fostering care of a protective tariff and a lot of special legislation. The farmer comes mighty near being the only independent personage in the whole land. All hail the farmer, may his tribute increase.

A Chicago couple has given it out that they are broken hearted over the death of a bull terrier. Perhaps this couple is entitled to some sympathy, but there is no occasion to have fits over the predicament. Perhaps if the bereaved ones would look about they could find ample opportunity to extend help to some hapless human being and thus assuage their grief to doing a bit of real good. Persons who can become attached to a dog would no doubt not find it difficult to transfer their affections to some bright child in need of a home. The experiment is worth a trial at least.

Unworthy candidates are found from time to time on the ticket of one or both of the parties. In such an event the duty of the patriotic citizen is plain. Just scratch the fellow who should not hold office. It will prove a wholesome lesson to the party managers and be a distinct gain to the public service.

The metropolitan press is still engaged in the diverting pastime of discussing the acceptance speeches of Taft and Bryan. The country press finished that job long ago and is now ready for the real issues of the campaign. This indicates that the city papers are somewhat slow in keeping up with the procession.

Apple pie, fried chicken, water-melons, corn on the cob and a whole lot of other good things. Who could be a consistent pessimist under such condition and midst such surroundings? No one save the fellow with ingrowing dyspepsia or, in case of corn on the cob, the person with false teeth?

Down in a Southern city the doctors absolutely refuse treatment to anyone who does not pay promptly. Now comes the startling information that there has been a marked decrease in the death rate since the propaganda of no pay, no pills was published.

The sheath gown has afforded a lot of near actresses the opportunity to score a point and get a lot of free advertising. Bloomers, perhaps, would have revealed as much, but would not have created as much interest in the public eye.

Some one suggests that women would be more effective in throwing if they would reverse present methods and aim at the things they do not want to hit. By this plan they would be enabled to hit the things they desire to exterminate.

John Cobb, over in Illinois, has married Mary Korn. Funny how the eternal fitness of things will adjust themselves. Illinois is a great agricultural state and corn is the principal product.

The hatless girl seems to have come to stay, at least all summer. Any way, she is a breezy, wholesome body, a delight to the eye and a relief to the pocketbook.

Cincinnati wants to abolish spoon-

ing in the parks. Well, do tell, what in the Sam hill are parks for, any way? Might abolish the parks and be done with it.

A Pittsburg girl offered \$450 for a husband. No doubt she could have found one just as good on the 30-cent bargain counter.

People starve themselves and spend more energy for a doubtful honor than it would require to keep a whole family in beefsteaks.

A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start on a trip without this, my faithful friend," says H. S. Nichols, of Oakland, Ind. Ter. EVERYBODY BUYING De Laval CREAM SEPERATORS.

That's very nearly the case this year—from Maine to California and Canada to Florida. The New Improved 1908 De Laval machines are simply "Sweeping the Field". If you have seen and tried a new 1908 De Laval separator you know why. If not you have but to see and try one to know why.

A new 1908 Catalogue—as interesting and superior as the machines themselves—is to be had for the asking.

There was about one half of a crop
sowed in this vicinity this year. The

the plants to die after the setter, and
necessitated late setting by hand.

Diagnosis of Tobacco Habit.
As a rule for diagnosing character
by tobacco habits it may be accepted
that the best men smoke quietly and
without ostentation, offer you a good
cigar without a preparatory oration on
its cost and merits, and smoke their
pipes and cigars on to the end. When
a man is concerned because his
friends are not smoking with him he is
a person to be cultivated.

August times tells on the nerves.
But that spiritless no ambition feeling
can be easily and quickly altered by
taking what is known by druggists
everywhere as Dr Shoop's Restorative.
Within 48 hours after beginning to
use the Restorative, improvement will
be noticed. Of course, full health will
not immediately return. The gain,
however, will surely follow. And best
of all, you will realize and feel your
strength and ambition as it is return-
ing. Outside influences depress first
the "inside nerves" then the stomach,
heart and kidneys will usually fail.
Strengthen these failing nerves with
Dr Shoop's Restorative and see how
quickly health will be yours again.

Yield of a Good Best Steer.

A good steer properly and at the same time profitably cut up will yield the following percentages of dressed weight, given in round numbers so as to be more easily memorized: Loins, 16 per cent; ribs, 10 per cent; rounds, 21 per cent; chuck, 19 per cent; rounds, 21 per cent; chuck, 19 per cent; plates, 16 per cent; flanks, 4 per cent; shanks, 7 per cent; tallow, 3 per cent; kidneys, 25 per cent; sausage meat, 1 per cent; shank meat, 150 per cent; tankage, 2 per cent; loss in cutting, 25 per cent.—National Provisioner.

We've Got A Telephone.

We've got a telephone at last, and wife is quite content. She says the news comes in so fast she hasn't spent a cent. For literature of any kind, she hears the neighbors tell so much of things that are going on. She listens for that bell. And, when some one begins to talk, she takes receiver down, and then she knows how everything is going on in town. I'd like to use the phone sometimes and get the price of grain. And call the Weather Bureau up. And learn when it will rain. But all the women on our line have got so much to say, I well wait, while other men are drawing in their hay. And then I say a word or two and wish that telephone was anywhere but in my house, or I'd be line alone.

Black Hole of Calcutta.

"The Black Hole of Calcutta" was a dark, practically airless prison cell some 13 feet square, into which, in the year 1756, the human brute, Buraia Dowah, thrust 147 British prisoners. In the morning when the cell door was opened only 23 out of the 147 were found to be alive.—New York American.

The Blood-Strained Equator.

Human life, I have reason to know, is held cheap at Equatorville, and the place is stained with many crimes. In fact, the whole equator is, throughout its 36,000 miles, a line of ignorance, savagery, and blood. It is a black whip which civilization ought to beat white.—The Strand Magazine.

Cured After Physicians Said No More Consumption.

E. H. Jones, Pastor M. E. Church, Grove, Md., writes: "About seven or eight years ago I had a very severe cold which physicians said was very near pneumonia, and which they were pronounced consumption. Through a friend I was induced to try a sample of **Foley's Honey and Tar**, which gave me so much relief that I bought some of the regular size. Two or three bottles cured me of what the physicians called consumption, and I have never had any trouble with my throat or lungs since that time."

Three sizes—25c, 50c, \$1.00. The 50c size contains two and one-half times as much as the small size and the \$1.00 bottle almost six times as much.

WORSE THAN ONIONS
Bad Breath From Indigestion Cannot be Overcome With Perfumes.

All of us suffer from bad breath—sometimes our own, but often that of our friends.

Nine-tenths of this bad breath comes from some stomach trouble, and cannot be overcome by breath perfumes or any other palliative measures.

If you occasionally have a bad breath; if there is heart-burn, flatulence and acid gurglings of undigested food; if the stomach burps or sneezes; if there is sleeplessness, nervousness, headaches or any other of the many symptoms of indigestion, use **Mi-o-na** stomach tablets and get well.

Mi-o-na is not a mere digestive nor a physic, but a tonic remedy that strengthens the muscles of the stomach and bowels so that the flow of gastric juices is increased, and the food is digested naturally and does not stay in the stomach to ferment and poison the breath.

Our leading druggists have seen so many cures made by **Mi-o-na** stomach tablets that they give a guarantee with every 50-cent box that the money will be refunded if the remedy fails to give satisfaction. They take the whole risk, and a box of **Mi-o-na** will not cost you a penny unless it cures you. Sold and guaranteed by **R. E. McRoberts.**

SAYS IT IS FACT.

Leading Druggists Confirm Guarantee on **Mi-o-na**, Cure for Catarrh.

The question having been raised as to whether or no druggists in this town will refund the money if a **Mi-o-na** outfit does not do all that is claimed for it in curing catarrh, they want to state positively that this guarantee is an absolute fact.

A guarantee like this is the best proof that can be offered as to the curative powers of **Mi-o-na** in all catarrhal troubles. You do not risk a cent in testing its healing virtues, your druggist takes all the risk.

If you have catarrh, try this wonderful medicated air of **Mi-o-na**. It does not drug or derange the stomach, but is breathed through a neat pocket inhaler that comes with every outfit, so that its medication reaches the most remote air cells in the nose, throat and lungs, where any catarrhal germs may be lurking. It quickly destroys them, heals and soothes the irritated mucous membrane and vitalizes the tissues so that catarrh is no longer possible. You can lose nothing by giving **Mi-o-na** a trial, nothing but the catarrh, and that is good ridance.

The price of the complete outfit is but \$1.00; nothing if it fails to cure. Get an outfit to-day and begin its use at once. Sold and guaranteed by **R. E. McRoberts**
